Wallonia
Overview of La Région wallonne

- **3 624 377 inhabitants** (32% of Belgian population) including 77,185 inhabitants from the German-speaking community
- **16,844.3 Km²** (55.2% of Belgian territory)
- **3 624 377** inhabitants
- **€92,1 billion** (23.2% of Belgian GDP) €27,709.96 per inhab.
- **741km** of waterways
- **81,207 km** of roads
- **2 airports:** Brussels South Charleroi, Liege
- **1,605 km** of rail network
- **Compensated unemployment rate going down 28%** between 2015 (12%) and 2018 (8.6%)*
  
*Statbel - 2018*
Overview of La Région wallonne

GDP evolution in volume (2008 = indice 100)

Unemployment rate by Province - 2017

Total export in Q1 and Q2 2018 (€ 22,635 million)

5 Key export sectors representing 73% of total amount
Overview of the Belgian State

Belgium is a federal state composed of Communities and Regions

1 Federal Government

3 Regional Authorities
- Flanders
- Wallonia
- Brussels-Capital

3 Community authorities
- Dutch-speaking
- French-speaking
- German-speaking
The Sixth State Reform enhances the fiscal autonomy of the federated entities and transfers the majority of powers from the federal level to the regional/community levels.

- Increase fiscal autonomy: regional personal income tax (IPP régional) and fiscal expenses (ex: mortgage credits).
- List of new transferred powers: family benefits, healthcare, labour market, road safety, tenancy regulation, driving education, technical inspection, houses of justice...

Federated entities financial autonomy and support from the Belgian Federal State

- Article 49 of the LSF organizes and supervises the delegation of debt management in the federated entities. For example, the role of the CSF (Conseil Supérieur des Finances) is to evaluate the financial plans of the federated entities, to formulate recommendations and in some cases to decide to cap the entity's lending capacity.

- Article 54 §2 of the LSF specifies that in case of an insufficient payment or in the event of delay in the payment of the amounts due by the federal state, the Communities and the Regions can contract a loan guaranteed by the Federal State and interest costs are taken on by the Federal State.
How La Région wallonne operates

The legislative assembly of la Région wallonne. Composed with 75 deputies, who sit in plenary sessions and in committees with the aim of:
- Adopting decrees (regional laws),
- Controlling the government (questions and questions) and
- Expressing positions on social issues (resolutions)

The Government is leaded by the Minister-President, currently supported by 6 ministers, each in charge of several domains of activity. In order to execute its missions, the Government delegates the operational activities to:
- the regional administration (SPW - Service Public de Wallonie)
- A number of Public Administration Units (UAP)
A large scope of competences

- **Equipment and Transport**
  - Mobility, waterways, sport facilities, heritage

- **Natural Resources**
  - Environment, water, conservation of nature, rural renovation, waste, agriculture

- **Local authorities**
  - Municipalities, provinces, public center of social assistance, school buildings

- **Quality of life**
  - Town and country planning, housing, integration of the disabled people, social action and health, energy

- **Economic activities**
  - Economy, employment, professional training, foreign trade, international relationships, development cooperation, research, technologies, tourism, taxation, EU structural funds
02

Finance
Focus on the Region’s revenues

Key comments:

✓ The 2019 budget is based on the macroeconomic forecasts of the Federal Planning Bureau of September 2018 (growth rate 1.5%, Inflation rate 1.9% and health index 1.8%)

✓ The revenue from hospitals and the negative transition mechanism are included in the Sainte-Emilie allocation from 2019.*

✓ The proceeds from borrowings for the debt repayments are registered in the revenue as advised by the Court of Audit.

* Till 2018, the net amount was included in the expenditures.
Focus on the Region’s expenditures

Key comments:

- The 2019 budget is based on the macroeconomic forecasts of the Federal Planning Bureau of September 2018 (growth rate 1.5%, Inflation rate 1.9% and health index 1.8%)
- The amount of expenditures for health represents 4.9 billion €
- The debt amortizations are registered in the expenditures as advised by the Court of Audit from 2018. In 2017, only repayment of the debt amortization fund for social housing was recorded...
Focus on the Region’s funding Gap

As of April 2018, Wallonia’s overall Environmental, Social and Governance performance is good (score of 55/100)

- Wallonia ranks 4th out of 30 in the European Local Authorities sector
- Wallonia demonstrates a consistent performance, with scores above the sector average in all six assessed domains
- The local authority’s performance is advanced in Community Development and good in four other domains: Environment, Human Resources, Human Rights and Governance
- The performance in Procurement and Services is only limited
Finance strategy and debt management
Management principles

Conservative risk management:

✓ Appropriate use of derivative financial instruments
✓ Optimal distribution between fixed rate and floating rate
✓ Principles of prudence, competitive procedure and efficiency of the decision making process

Responsiveness, flexibility, transparency and communication

Levelling of the debt amortisation schedule

Access to funding via a wide range of products (EMTN, SSD, Banking facilities, etc.)
Key figures

- Implicit rate: 2.45% as of 31/12/2018
- Average life span: 12.42 years as of 31/12/2018
- 85.09% of the direct debt is at fixed rate as of 31/12/2018
- Debit on current account terms: €3,250 million
- EMTN Program: €6,000 million as of 31/02/2018
- MTN Programs: €3,750 million as of 31/12/2018
- Guaranteed Debt (senior): €5,830.80 million as of 31/12/2018
- Maastricht Debt Contribution on the 31 December 2017 - expanded perimeter (October 2018 notification): €21,337 million
Guaranteed DEBT (Senior) € 5,830.8 million

### Key comments:

1. Executed

2. Including € 25.6 million for the indirect debt (SPABS: Patrimonial companies of administration of the school buildings), € 160 million, for the Fadels (Debt amortization fund for social housing) and € 87.5 million for ECETIA

3. Underspend estimated: € 281 million and included in the funding gap presented

4. Including € 160 million for the Fadels (Debt amortization fund for social housing) and € 133.8 million for ECETIA

### Expected Residual Funding Needs for 2019:

€1,256.5m
Redemption profile of the direct debt

Annual redemption of the LT-debt in €/million
Additional information on the debt

Composition of the direct/indirect debt in € million

La Région wallonne has currently more than 30 banking counterparties in the market to raise its financing.

Outstanding amount in the various programs

**Access to Essential Services and Basic Public Infrastructure**
Overview of the Sustainable Direction (SD)

A Sustainable Development Department was set up in July 2012 by the Walloon Government, and transformed in a Sustainable Direction (SD) in September 2017. The SD undertakes several tasks in order to accelerate the transition of the region towards sustainable development

- Develop strategic approaches on sustainable development at the regional level and to represent Wallonia on sustainable development issues
- Enable various actors to integrate sustainable development in their missions and activities, with a focus on improving the sustainability of public services (in particular through the development and implementation of the 2nd Plan of sustainable development)
- Facilitate the transition of systems, such as food, construction, etc, towards sustainable development

The direction mainly works through the following macro-policies:

- Walloon Sustainable Development Strategy
- Sustainable construction
- Sustainable food
- Sustainable public purchasing
- Corporate social responsibility and sustainable management
Overview of the 2\textsuperscript{nd} Walloon Sustainable Development Strategy (WSDS)

- The 2\textsuperscript{nd} Walloon Sustainable Development Strategy (WSDS) was adopted in July 2016. This strategy follows a 1\textsuperscript{st} strategy adopted in October 2013.

- The strategy is designed as “a guidance and actions document to promote initiative and consistency for sustainable development in the public policies of La Région wallonne” (art. 2, 2° of the decree).

- The vision of the WSDS is structured around 3 dimensions:
  - **Here – Living in Wallonia in 2050**: This dimension deals with the ability of the Walloon citizens to enjoy a certain quality of life. This dimension addresses aspects such as health, food, housing, education, employment, goods and services, inequalities.
  - **Elsewhere – Living in the world in 2050**: This dimension focuses on the interdependencies between the Walloon development and the development of the rest of the world.
  - **Later – Living after 2050**: This dimension uses a 3 capital approach to address human well-being and respect of the environment:
    - Natural Capital
    - Human & Social Capital
    - Financial Capital

- The strategy is fully in line with the 2030 Agenda for sustainable development and with the 17 Sustainable Development Goals (SDGs), adopted by the United Nations in September 2015.

- Focusing on **People, Planet, Prosperity, Peace & Partnership** (5 Ps).
La Région wallonne has identified 5 global environmental and social challenges that are at the heart of its environmental and social policies:

- Energy
- Preservation of Resources and Biodiversity
- Mobility
- Live together / Fight against Poverty

Global environmental and social challenges require massive investments and state supports.

La Région wallonne has set a number of objectives and action plans (please see following slides) in order to address these challenges.

La Région wallonne’s Green and Social Bond Framework will further support the region in its role of financing the required expenses to achieve its environmental and social mission.
Food

The food system is showing more and more critical signals regarding its long-term non-viability. Globalization leads to more outsourcing of the supply process and leads to periodic crises.

- **Environmental challenge**: Overexploitation of natural resources, CO2 emission
- **Social challenge**: Malnutrition, junk food and obesity, chronic exposure to synthetic products and loss of biodiversity
- **Economical challenge**: decline in agricultural employment, indebtedness of producers

- Defining a reference system promoting **sustainable food**
  - La Région Wallonne has defined a reference system promoting sustainable food in the Strategy “Manger Demain”
  - Promoting sustainable canteens via a sustainable canteen label

- Supporting the transition to **sustainable production and consumption** patterns across the food chain
  - Promoting cooperative models
  - Financing short distribution channels
  - Supporting family farming through administrative simplification
  - Encouraging the multiplication of marketing routes for local products
  - Supporting the supervision of producers in the fight against food waste

- Developing **knowledge and skills** of all stakeholder across the food chain through R&D and professional trainings

- Implementing plans to be more **efficient with the public markets** demand to improve the transition to sustainable food in Wallonia
  - Setting progressive goals for incorporating sustainable food products into public procurement

- Establishing **food aid** for the most disadvantaged population, through food donation and promotion of local sustainable products in social grocery stores and associations

---

**Supporting Plans**

- Walloon program against food loss and waste
- Strategic plan for the development of organic agriculture towards 2020
- Rural Development Program 2014-2020
Energy

The increase in GHG emissions, which are mainly due to excessive consumption of fossil energy, is part of the negative externalities that are responsible for the climate change on the planet and in La Région wallonne. La Région wallonne has set up ambitious objectives in terms of renewable energy and energy efficiency:

- Wallonia is committed to fulfilling the same climate objectives set at the EU and Belgian Federal State level. 80 to 95% of greenhouse gas emission reduction by 2050 compared to 1990; 35% reduction in 2030 compared to 2005 (non-ETS)
- In terms of energy production from renewable sources, the Walloon Government is aligned with Belgium’s targets (40% of electricity from renewables by 2030)
- La Région Wallonne encourages energy efficiency in homes and industry/services

La Région wallonne wants to develop and to extend its network in the field of renewable energies while ensuring that all Walloon residents have access to energy

- Promoting **energy savings** through better control and a gradual reduction of energy consumption, for both private and public operators

- Promoting **renewable energies**
  - Implementing the Territorial Development Code to facilitate the establishment of green energy production sites
  - Setting up on-shore wind farms in Wallonia
  - Facilitating the establishment of renewable energy production sites
  - Supporting the local communities in their actions to promote energy efficiency and renewable energy
  - Promoting innovative storage solutions, such as using water towers as energy storage units

**Supporting Plans**
- Plan Air Climat Energie 2030 (PACE 2023-2030)
- Plan national Energie Climat
- The 2016-2021 River Basins Management Plans
- The Biomass-Energy Strategy
- Plan Lumiere
Preservation of Resources and Biodiversity

The unsustainable use of resources has triggered critical scarcities of natural resources causing widespread environmental degradation. In the course of the last 50 years, biodiversity losses occurred more rapidly than during all previous periods of human history.

Aware of these challenges around natural resources and biodiversity, La Région Wallonne has set objectives, in line with the objectives set at the EU level:

- Target of 17% of continental protected areas by 2020
- 50% of paper / metal / plastic / glass recycled by 2020
- La Région Wallonne aims to compost 100% of organic waste by 2025

- Enhancing and facilitating the use of local natural resources:
  - Promoting local and participative projects to maintain, develop and restore biodiversity at the municipal level (maintenance and conservation of forest trails and canal walkways, spaces and habitat protection, natural reserves management,…)
  - Awareness campaigns

- Improving the efficient use of resources:
  - Supporting the traceability of waste
  - Implementing assessment tool for the environmental performance of building components
  - Supporting the use of biomass

- Encouraging recycling and circular economy

- Better managing of water and wastewater, setting up a new water quality improvement for inhabitant in Wallonia

- Protecting biodiversity and landscape:
  - Protection of the water ecosystem (such as Fish ladder in the Mosan Basin)
  - Promoting the creation of shared gardens and vegetable gardens / parks in public or public service structures

Supporting Plans

- Walloon Plan for Waste-Resources
- Forest Management Plans
- Regional Water Resources Scheme
- Regional scheme of water resources
- Management Plans by Hydrographic District 2016-2021
- The Municipal Plan for the Development of Nature
Mobility

Due to the globalization, mobility became of primary importance.

- **Social challenges**: reduce inequality and provide safe travel for all
- **Economic challenges**: traffic jam’s cost for the society
- **Environmental challenges**: Premature deaths attributed to outdoor air pollution coming from the transport sector.

La Région wallonne aims at reducing traffic congestion and related environmental nuisances, while improving access to all, by developing multimodal units and clean transport infrastructures.

- Promoting mobility through the development of **public transport**:
  - Carpooling
  - Cyclo-pedestrian infrastructures for daily use including Ravel
  - Public transport: new lines, adaptation of existing ones
  - Public transport: clean sites and greening of the fleet

- Improving the fluidity of people’s exchanges through the development of **multimodal units**:
  - Buildings multimodal platforms to facilitate the inhabitant’s mobility
  - Buildings and secure bus-car-bike parking areas
  - Arrangement (bus, bicycle and pedestrians) of roads to and from the platform
  - Shared car rental, bicycles
  - Services: wifi, coworking, snacks
  - Energy: post-diesel charging stations, photovoltaic production

- Gauging by dredging of **waterways**:
  - Promoting the freight transport by the waterways side
  - Reducing road freight transport in Walloon Region

- Encouraging the production of **biofuels**

Supporting Plans

- The Walloon F.A.S.T. 2030 Plan
- Investment Walloon Plan - PWI (2019 – 2024)
- Infrastructure Plan
- National Action Framework for the Development of the Alternative Fuels Market in the Transport Sector
La Région wallonne has seen social inequalities increase for several years. The Walloon authorities have defined 3 challenges that explain the increase in poverty.

- **Housing challenge**: The inequality of access to quality property, the increase of cost
- **Healthcare challenge**: 1/5 of the population has postponed or renounced health care services for financial reasons
- **Family policy challenge**: Child poverty risk and possible discrimination

La Région wallonne aims at sharply reducing social inequality via concrete actions to fight against poverty.

- **Promoting the fight against poverty by improving housing accessibility**
  - Contributing to the improvement of living conditions
  - Promoting and supporting the concept of ‘living together’ through the development of New Neighborhoods / New Towns projects
  - Supporting the purchase and renovation of housing thanks to Public Administration Units, such as the FLW, SWCS and SWL
  - Supporting awareness campaigns promoting affordable housing

- **Improving the access of disadvantaged people to health services**
  - Supporting the installation of general practitioners in areas in shortage and socio-economically disadvantaged
  - Enhancing price transparency in nursing homes
  - Increasing the access of precarious publics to preventive medicine devices

- **Setting up family policies** to help people in difficulty:
  - Better distribution of family allowances
  - Inclusion of single-parent families in the future model of family allowances
  - Improving access to homemakers and sick-child-care services in order to relieve working parents

- **Facilitating access to education** for all through the creation of education and vocational training programs.
  - Developing of professional transition programs by FOREM institution
  - Developing alternating training for students by IFAPME institution

- **Setting up programs, initiatives and projects** to promote **socioeconomic advancement and empowerment** to reduce inequalities and social exclusion
  - Developing several services to fight against poverty (Local Development Actions, Walloon Social Credit Agency, RWLP actions…)
  - Supporting to social insertion programs

Green and social framework
# Sustainability Bond Framework Overview

- In line with the [Green Bond Principles](#) and [Social Bond Principles (2018)](#)
- Framework reviewed by Vigeo eiris

## 1. Use of Proceeds

- Eligible Green and Social Expenditures related to a large number of assets, in line with the role of the Region, and targeting different beneficiaries: public entities, companies, communities, households and individuals
- Four Eligible Social Categories: Education and Employment Promotion, Socioeconomic Advancement and Empowerment, Affordable Housing and Access to Essential Services and Basic Public Infrastructure
- Investment expenditures, operating expenditures, tax expenditures and R&D are eligible
- Nuclear and armament activities will all be excluded, without any exception

## 2. Process for Project Evaluation and Selection

- The selection of Eligible Green and Social Expenditures is annually managed by an Inter-Ministerial Working Group (the “Sustainability Committee”)
- Each time required, the Committee will request expertise support from Walloon public agencies in charge of key environmental and/or social expenditures
- The Sustainability Committee is responsible to i) select and review the pool of Eligible Green & Social Expenditures, ii) validate the effective disbursed amounts of Eligible Expenditures at the end of each fiscal year, iii) update the Framework (when necessary) & iv) decide for new issuances under the Framework

## 3. Management of Proceeds

- Tracking the allocation of the bond proceeds will be done by the Sustainability Committee
- Eligible Green and Social Expenditures from the current year (Current Expenditures) and the previous year (Recent Expenditures)
- In order to avoid any possible double counting, the Sustainability Committee will make sure that only expenditures net of any EU programs, the Belgian Federal State grants, or other revenues earmarked for specific purposes, are eligible

## 4. Reporting

- Allocation and impact report
- Annually until full allocation
- An independent auditor will be appointed by La Region Wallonne to ensure that the (re)allocation of net proceeds, the unallocated amount and the reporting commitments are compliant with the Framework
### Eligible Green Categories (1/3)

</tbody>
</table>
| - Direct financing to dedicated social housing agencies  
  **Target populations:**  
  - Low-income people |
| - Financial assistance (social loans and low-cost rental housing) to low-income families and individuals for housing purpose (access to property, rental offering, renovation/energy efficiency)  
  **Target populations:**  
  - Low-income people (including, but not limited to, people with no or limited access to bank loans)  
| | **Examples of Projects** |
| | - Support social housing landlords FLW, SWCS, SWL  
  - Social housing subsidies for Walloon large families (FLW) (> 2 children) : social loans and access to social housing rents  
  - “Plan Habitat Permanent”  
  - SWCS: Renopack, Accesspack with ad-hoc criteria for house owners  
  - SWL : acquiring & maintaining social housing for rental offerings  
  - [Tax credits for expenditures made by individuals in renovation of private housing proposed at moderate rent]  
| | **Social Benefits** |
| | Access to housing for all |
| | **RW’s identified Challenges** |
| **Support to AViQ to finance:** |
| - Health programs  
- Health-Environment subsidies  
- “Centres médicaux ruraux” (local health services)  
- Home Services  
- Funding of Health Facilities  
- R&D subsidies dedicated to healthcare projects  
- Construction of rural centers  
- Psychiatric Care Centers  
- Dedicated public transport and/or access facilities for people with disabilities  
| | **Social Benefits** |
| | Access to health services for all |
Portfolio of Eligible Expenditures

- **EUR 1.3 bn of Green and Social Eligible Expenditures**

**Breakdown by Eligible Green Category in 2018 (12%)**
- Energy Efficiency & low carbon buildings
- Sustainable mobility
- Protection of Resources, Land & Biodiversity
- Renewable Energy
- Sustainable food & consumption

**Breakdown by Eligible Social Category in 2018 (30%)**
- Affordable housing
- Education & employment generation
- Access to essential services & basic public inf.
- Socio-economic advancement & empowerment

**Breakdown by Eligible Green Category in 2019 (25%)**
- Sustainable mobility
- Energy Efficiency & low carbon buildings
- Pollution prevention & control
- Sustainable food & consumption
- Protection of Resources, Land & Biodiversity
- Renewable Energy

**Breakdown by Eligible Social Category in 2019 (33%)**
- Affordable housing
- Education & employment generation
- Access to essential services & basic public inf.
- Socio-economic advancement & empowerment
Examples of Eligible Green Expenditures

Project Name: Setting of the lock complex Ampsin - Neuville
Owner: SPW Mobility & Infrastructure (Waterways)
Location: River basin of the Meuse, between Namur and Liège
Completion date: until 2023 (total budget of EUR 164 million)
Category: Sustainable Mobility

- Building 2 new locks on the Meuse (225m x 25m /class CEMT V1b)
  (225m x 12.5m /class CEMT Vb)
- Building a new fish ladder (artificial river) - Build a new cycling footbridge – Adapting left & right banks
  ✓ Being the 3rd largest lock in Wallonia, the complex is part of the Trans European Transport Network (TEN-T)
  ✓ Improving the navigation on the Middle Meuse towards Antwerps & Rotterdam ports, contributing to transfer road traffic to waterways (from 10 mn tons today to 25 mn tons in 2050)

Project Name: Fish ladders for salmon and eel
Owner: SPW Mobility & Infrastructure (Waterways)
Location: fish ladders in the River basin of the Meuse
Amount: EUR 3 million (only 2018 – 2019)
Completion date: until 2024 (over 15 million in total)
Category: Protection of Resources, Land & Biodiversity

- Restore ecological continuity (upstream / downstream migration). Restore habitat (spawning & nursery).
- Walloon Region involved in international cooperation on basin level (France – Netherlands)
  ✓ River Basin management of the Meuse in line with EU Water Framework Directive (WFD)
Examples of Eligible Green Expenditures

<table>
<thead>
<tr>
<th>Project Name</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Project Name**: Renovation of the centenial dam of Monsin  
**Owner**: SPW Mobility & Infrastructure (Waterways)  
**Location**: River basin of the Meuse in Liège  
**Amount**: EUR 19.8 million (2018 – 2019)  
**Completion date**: until 2021 (total budget EUR 45.8 million)  
**Category**: Climate Change Adaptation |
| - Renewal of the 6 sluices, with a rhythm of 2 sluices a year to protect the dam efficiency during construction works  
  - Maintaining the water level necessary for navigation on the Meuse and the Albert canal  
  - Protect the city of Liège against floods in case of rising waters |
| **Project Name**: PIVERT – Green Investment Plan  
**Owner**: SWL  
**Location**: All over the Walloon territory  
**Amount**: EUR 44.8 million (2018 – 2019)  
**Completion date**: until all social housing have been 2021 (total budget of EUR 400 million)  
**Category**: Energy Efficiency & Low Carbon Buildings |
| - SWL allows about 220,000 people (6% of the Walloon population) to realize their right to decent housing.  
- Managing 87% of social housing in Wallonia, SWL has is using the PEI plan and PIVERT plan to renew totally or partially over 47 000 of its social housing.  
  - Since 2017, the PIVERT 2 Plan targets the highest consumption dwellings and is fundamentally focussing on insulation works and energy renovation |
Examples of Eligible Social Expenditures

Project Name: CISP – Socio-Professional Insertion Centers
Owner: FOREM (Office Wallon de la Formation Professionnelle et de l'Emploi)
Location: 157 accredited centres across Wallonia territory
Completion date: long term renewable subsidies (at least 2024)
Category: Education & Employment Promotion

- Basic & professional training for trainees away from employment
- Key training areas: literacy, personal development, building, hospitality, green crafts, personal services, secretarial services and commerce.
  - CISP are screened by SPW in charge of Training & Employment, then accredited by the Ministry of Employment
  - CISP are working in close collaboration with the CPAS (local welfare agencies)

Targeted Population:
- Any person not subject to compulsory education, having at most a second-level secondary school certificate or equivalent qualification and enrolled in the Forem as unemployed jobseeker for at least 18 months during the 24 months preceding the date of entry into training (16,000 trainees in 2018 for 6 million training hours)
- Any person being recognized with at least 33% incapacity for work
Examples of Eligible Social Expenditures

- Premium & 0% Loans granted to help owners renovate their existing housing
- To benefit from Renopack for social housing, the owner should comply with maximum yearly family taxable income (RIG).
  - Owner of a social housing, which should have been occupied since at least 10 years
  - CISP are working in close collaboration with the CPAS (local welfare agencies)

Targeted Population:
- For the the target of the Walloon inaugural bond, la Région wallonner has decided to fix an eligibility factor, i.e. Renopack allowances (loans & premium) will only be granted to beneficiaries proving that their effective family yearly taxable income will fall into the two lowest categories of revenue, i.e. category 1 (up to € 23,000.00) and category 2 (up to € 32,700.00).

Project Name: Renopack Plan
Owner: SWCS (Société Wallonne du Crédit Social)
Location: covering the Walloon territory
Amount: EUR 68.5 million (2018 – 2019)
Completion date: long term renovation subsidies (at least 2024)
Category: Affordable Housing
Process for Project Evaluation and Selection

- La Région Wallonne has created the “Sustainability Committee” to oversee its Sustainability Bond Framework

- The role of the Sustainability Committee will be to:
  - Select and review the pool of Eligible Expenditures
  - Validate the effective disbursed amounts of Eligible Expenditures at the end of each fiscal year for annual reporting to the investors
  - Define and update the Sustainability Bond Framework (when necessary)
  - Decide for new issuances under the Framework

- The Sustainable Committee will meet at least twice a year

- Each meeting will be documented with a report and a record of decision

Members of the Sustainability committee:
- The Ministry of Budget (Chaired)
- Division in charge of Financing and Treasury
- Division in charge of Regional Sustainable Development Plan
Management of Proceeds

- The tracking of Eligible Green and Social Expenditures will be done by the operational team within the Sustainability Committee

- **Recent Expenditures:** Green and Social Expenditures financed and/or refinanced in the year preceding the issuance (or tap) date

- **Current Expenditures:** Green and Social Expenditures financed and/or refinanced in the same year as the issuance (or tap) date

- A register will be established to monitor the allocation of proceeds to the Eligible Expenditures ensuring that the allocation of proceeds will not allow for listing of the same budget allocation twice

- Full allocation of the net proceeds to Eligible Green and Social Expenditures will be done within 12 months after bond issuance

- Pending the full allocation of the net proceeds, the Sustainability Committee will keep record of the remaining balance of unallocated Green and Social Bonds proceeds and will invest such unallocated amount in money market products (when possible with ESG criteria) as per La Région Wallonne’s Treasury Policy

- Only expenditures net of any EU (CEB – BEI – FEDER) or Federal State grants, or any other revenues earmarked for specific purposes, are eligible.
Reporting

- Annually (in line with the annual budgetary review)
- An independent auditor will be appointed by La Region wallonne to ensure that the (re)allocation of net proceeds, the unallocated amount and the reporting commitments are compliant with the Framework
- The allocation report will include:
  - The aggregated amount of (re)allocation by eligible category and sub-category
  - Brief list & description of some eligible projects
  - Balance of unallocated proceeds (if any)
  - Share of financing vs refinancing

**Impact report:**
